Tonight’s Speaker
Price Heiner
Forest Archaeologist/Heritage Program Manager on the Carson National Forest

La Cueva Rockshelter: Evidence of Long-Term Continuous Prehistoric Use of the High Elevations of Northern New Mexico

March 10, 2020

Price will address the shovel testing results of a high elevation rockshelter site located in the Valle Vidal of Northern New Mexico. The preliminary results suggest long-term repeated use of the rock shelter over thousands of years by both Southwest and Plains prehistoric groups. His discussion will focus on the long-term occupational history of the shelter, the geomorphic and geoarchaeological contexts of the shelter, as well as the use/function of this particular rock shelter.

Price Heiner has been working as a professional archaeologist for ~19 years with approximately 8 years working for private archaeological firms, and 11 years for the U.S. Forest Service. As an archaeologist he has primarily worked in New Mexico, Colorado, Wyoming, South Dakota, North Dakota and Montana. He is originally from Fort Collins, Colorado and received his bachelor’s degree in anthropology from Colorado State University, and his master’s degree in anthropology from University of Wyoming and is primarily interested in hunter-gather ecology, landscape archaeology, lithic technological organization, geomorphology, geoarchaeology,
paleo-environmental reconstruction, Pleistocene-Holocene transition, projectile point typology, bison evolution, predator-prey dynamics, experimental archaeology (flint knapping, animal butchering using stone tools, etc.), high-altitude archaeology, Paleoindian archa-eology, Peopling of the New World, and human behavioral ecology.

New Officers

The New Officers of the Taos Archaeological Society for 2020-2021 have been confirmed to volunteer.

1) Philip Alldritt  
2) Judith Hetem  
3) Nancy Colvert  
4) Anita Briscoe  
5) Debbie Espie  
6) Chris Ellis

The TAS is always looking for volunteers to participate in activities and volunteer as officers. Please contact taoscuba@hotmail.com for more information.

Thank you for your continuing support of TAS.

Pot Creek Ceramic Sorting

is still requesting volunteers to participate in processing out their Prehistoric collections. Wednesdays at 9:00am at the SMU Laboratory. Contact Mark Henderson for more information. markscotthenderson@gmail.com

ASNM 2020

The Taos Archaeological Society is pleased to announce we are hosting the Annual Meeting of ASNM. The Conference will take place May 8-10, 2020 next Spring. TAS is looking for volunteers to participate in helping Saturday May 9. The Meeting theme will be “Taos at the Crossroads of Trade.”

Register on the TAS website now for DISCOUNT at taosarch.org

Interesting lectures, Field Trips, Steve Lekson keynote speaker and Banquet Dinner. Burro loading demonstration, Silent Auction. Contact Phil Alldritt at taoscuba@hotmail.com to participate as a volunteer.

Budget information for 2019-2020 for the Taos Archaeological Society is now posted on the website.
TAS Lifetime Membership

The Taos Archaeological Society is offering Lifetime Membership with the contribution of $500.00 per individual anytime up until December 31, 2019.

Take advantage of this Tax Deductible opportunity and help TAS fund our mission!! The Lifetime Membership will include the Member plus one additional family member.

TAS,
PO Box 143,
Taos, NM  87571

Field Work

The Taos Archaeological Society, in cooperation with Carson National Forest will participate in archaeological testing of a rock shelter site in Valle Vidal Summer of 2020. We will be posting updated information soon to members.

We excavated and surveyed this area for a week August 5-9, 2019 and recorded two hearths and many artifacts. Three new sites were also recorded. We collected lithics including obsidian and 5 ceramics. Also, in the excavation we found an Archaic projectile dart San Pedro variety (see photo below (circa 1500 BC). Great group of archaeology techs and volunteers from TAS.
La Cueva Feature 2 Thermal Feature

SUMMER POT LUCK COMING SOON!!!! July 2020

TAS Education Initiative

The Taos Archaeological Society is in part Funding trips for students to The Mesa Prieta Petroglyph Project!! Trips coming up this Spring 2020!!! Contact Phil Alldritt at taoscuba@hotmail.com

TAS is looking for Members to form an Education Committee who will promote and facilitate communication with teachers and schools to advance our bus trip programs!! To participate in this very successful effort contact Phil Alldritt at taoscuba@hotmail.com

Thank you!
TAS is also looking for Members to participate in organizing TAS archives from 2000-Present. We are requesting that any Members who have photographs from TAS trips and any archival materials to contact Phil Alldritt at taoscuba@hotmail.com. Thank you!

Pollen and starch grain evidence indicates that domesticated maize (Zea mays subspecies mays) first appears in the Balsas region of Mexico by ~9,000 years ago, but few data exist on when corn became an integral part of the human diet in Mesoamerica. In this talk Keith presents new data for a transect spanning 9,500-1,200 years ago of stable isotopes of carbon showing the adoption of maize was gradual, later than might be expected, and resulted in a maize dependent diet in the neotropics by 4000 B.P.

Keith Prufer is a Professor of Anthropology and director of the Environmental Archaeology Laboratory at the University of New Mexico. For 25 years he has conducted excavations in the Maya Lowlands focusing on human-environmental relationships. His newest project is investigating the Paleoindian and Archaic origins of humans in the neotropics through studies of diet, technology, and genomics.
